EDITORIAL

Filled We AGREE

We are pleased to have had so many of our readers agree with our recent editorial on Sunday observance. Many have come by our office or written to us or 'phoned that they agreed that rural Virginia must take the lead in demanding reasonable Sunday observance. Encouraged as we have been by your backing we shall continue the effort.

Stuff Where Wealth?

Under the above caption, the Ivis (Penn.) Daily Register introduces some highly pertinent questions and comments relative to the share the wealth theorists that are being promoted to the near box platoons radio pamphlet and whatever medium that offer circulation. Said the Daily Register:

Considering the number of Have Long clubs and Townsend Plan clubs and other organizations that are lobbying up all over the country all having the same object in view, namely to take money from those who have it and give it to those who have it not, preventing the accumulation of wealth, several should be answered by the man who had shown us how we are all to become interesting to inquire where wealth is or that is to be found.

Answering the question this journal of the Kansas editor directs attention to the fact that 1% of the bottom of the distribution, there were 24,000,000 citizens dependent upon the charity of the United States. It proceeds to enumerate dependents at 100,000,000 that is the sum total of

were 1,515,000 postal savings depositors with deposits of $1,165,000, 000; and 10,000,000 savings and loan building and loan associations with assets of 12,000,000,000. These are not total ... 55,000,000 persons owning $25,000,000,000. When insurance policy holders are added, the present total represents assets of approximately one half the nations total wealth. And that does not take into account homes, farms and other property that is owned by millions of individuals.

Figures such as these, taken from official sources, make the boast talk an hour as often about 2 or 3 per cent of the people owning 50 or 60 or 90 per cent of the wealth of the country sound like the silly nonsense it is. The Register added and then concluded:

All of which means that the man who wants to get his share of the wealth must get out and work for it ... not sit around with his hands folded waiting for Huey Long or some other Santa Claus to bring it around and stuff it in his stocking.

Chewing the rag all the time gets on your nerves. It's the doing of things that counts.

If you want to be a regular citizen, you must be an active citizen.

A paper that carries YOUR name and that of your neighbors in its news columns is the best advertising medium yet found.

Long after the daily paper has been used to start the cook stove and the radio has been forgotten, and forgotten, the boys' weekly still has its place in the home.

If there's no news from you each week, there's no paper for you. Come in and let us hear from you next week.

The fever caused me to miss Monday night.

Go to the Appomattox school next Saturday and Monday, June 10 for the Free Virginia Public Service Company cooking school.

How your MONEY
WORKS FOR YOU IN A
Checking Account

When you put your money in a savings account you get interest on it. In a checking account you get service for it—and let the bank draw the interest. In return for this interest the bank gives you privileges worth far more to you than the interest itself.

When you maintain a balance commensurate with your use of your checking account privileges, the bank will be reimbursed for the expense of serving you. Otherwise, the bank may properly look to you to meet this expense.

Money in a checking account is an investment that pays you real dividends.

Get Rid of Poisons
Produced by Constipation
A cleansing laxative—purely vegetable Black-Draught—is the first thought of thousands of men and women who have found that by restoring the downward movement of the bowels many disagreeable symptoms of constipation promptly can be relieved. . . Mr. J. P. Mahaffey, of Clinton, S. C., writes: "I have found that Black-Draught is very effective in the cleansing of the system. When affected by the dull headache, the drowsiness and lassitude caused by constipation, I take Black-Draught."

Blind Hens
Blindness may be caused by several diseases of chronic nature and by affections of the nerve structure of the eye, the nature of which is not known, says the Rural New-Yorker. It is not possible to say, from the blindness alone what disorder is present but it is not probable that the mule bird in the flock is in any way responsible. Chronic coccidiosis may bring about lameness and blindness in mature birds. Any males or hens in the flocks that have shown evidences of blindness or other lack of health and vigor should be excluded from the breeding flock as a precaution against deterioration in that line that is so necessary if continued health is to be maintained in future generations.
